CAREER PROFILE

A design-focused and detail-oriented web developer passionate about transforming ideas into seamless, visually engaging, and user-centered digital experiences. Aspiring to grow as a Frontend UI/UX Developer by combining thoughtful design, clean development practices, and creativity into impactful solutions.

FEATURED PROJECTS

ASIAN HACKATHON FOR GREEN FUTURE **April 2026 - Present**

- Designed intuitive and user-centered UI/UX solutions aligned with user needs and project goals.
- Conducted user research and usability analysis to guide interface improvements and enhance overall user experience.
- Collaborated in defining system requirements by integrating research insights with functional and visual design strategies.

DROPIFY **October 2025 - November 2025**

- Developed a full-stack web application using the MEVN stack, focusing on intuitive UI/UX design and creating seamless, user-centered digital experiences.
- Designed responsive and visually engaging interfaces while integrating functional backend systems using MongoDB, Express.js, Vue.js, and Node.js for smooth and scalable performance.

EINSTEIN'S ART WEBSITE **November 2025 - March 2026**

- Designed and developed a visually engaging static website using Angular, focused on delivering a clean and accessible user experience.
- Applied frontend development principles to create responsive layouts and intuitive interface interactions.
- Utilized Angular, CSS, and Netlify for efficient development, styling, and seamless website deployment.
